CSCI 441 / DEMO 1

SuperAsk.AI

Public-service answers. With sources.

Ask questions about Cambodian government procedures in Khmer or English, and see the official information behind the answer.

Free to use | Web + Telegram | No account required

HOW SUPERASK WORKS

One answer engine. Three ways to ask.

WEB CHAT

Ask from a browser; switch between Khmer and English.

TELEGRAM BOT

Send a question and receive a sourced chat reply.

MINI APP

Open the full SuperAsk chat inside Telegram.

SOURCE-FIRST, NOT GUESS-FIRST

Retrieves relevant records, checks claims, cites sources, and declines unsupported or out-of-scope questions.

WHAT IT COVERS TODAY

A focused, growing knowledge base

CURRENT TOPICS

Driving licence & vehicle registration; birth certificates; trademarks; consumer finance.

CONTENT SNAPSHOT

45 source passages | 5 curated answers | 14 explained terms | 37 search aliases

WHAT YOU NEED

TO USE IT
Any modern web browser (Chrome, Safari, Edge, Firefox) on a phone or computer with internet, or the Telegram app. No install or account.

TO RUN IT YOURSELF
Node.js 22 or newer and npm, on Windows, macOS or Linux. No AI API key needed. Setup steps are in the GitHub README.

BUILT TO BE ACCOUNTABLE

The prototype reports 610 passing unit tests and 33 integration tests. Its 44-question evaluation found the right source in the top eight results 94.1% of the time; source ranking remains an improvement priority.
