Or decline, never guess
says what it does cover

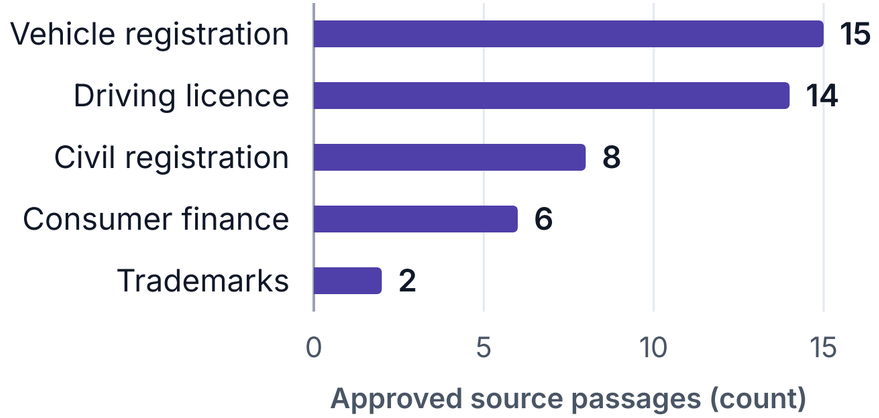

For Cambodian citizens

who need the steps, documents, fees and office for a government service. Today that information is scattered across ministry sites, Facebook and Telegram, often as undated images, so people lose a day or pay a broker.

What is new: unlike a general chatbot, it never invents a fee. Every answer carries its official source and review date.

What it can answer today

45 approved passages from 4 ministries, by service

Five use cases, four business goals

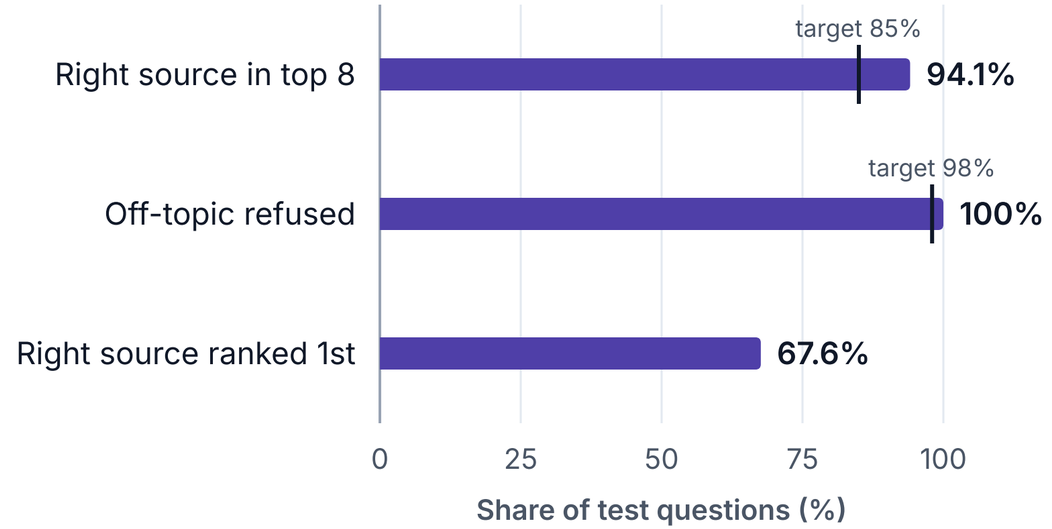

USE CASE	BUSINESS GOAL	WHAT YOU WILL SEE
UC-1 Ask · UC-2 Retrieve	Bilingual access Comprehensive information	“How do I renew my driving licence?” in English, then in Khmer: the answer quotes the ministry page in the language asked. Follow-up: “How much does it cost?”
UC-3 View citation	Trustworthy answers	The source card: ministry, Prakas No. 047, effective and last-verified dates, review status, link to the official page.
UC-4 Decline	Trustworthy answers	“What is the weather in Phnom Penh tomorrow?” It declines and says what it does cover, instead of guessing.
UC-7 Office contact	Ministry contact and location	In Telegram: “Where do I apply for a driving licence?” Service centres, hotline 1275, email, office hours.
UC-11 Refresh content	Comprehensive, current information	The monitor checks moc.gov.kh page by page. Changes go to a reviewer, never straight into answers.

How well it works today

44-question test set: 34 answerable, 10 out of scope. Run on every code change.

NOV 10 – 16 · REPORT 3 PART 1

Apply Demo 1 feedback. Sharper relevance check, so an uncovered topic is declined, not matched to a nearby one.

NOV 17 – 23 · FULL REPORT 3

More services (passports, business registration) and better ranking, to lift the 67.6%.

NOV 24 – DEC 3 · DEMO 2 · DEC 4

Office directory with map links, Telegram follow-up memory, real accounts, reviewer portal.
